

Provide alternatives to transit with Cycle Safe bicycle lockers, the industries most durable locker with a 30 year plus proven product life. These space efficient units park as many as 10 bikes in a single parking space.

Cycle Safe serves planners for transit, education, healthcare, corporate, government or municipal facilities by providing the best in quality, innovation and reliability.

Cycle Safe also manufactures a wide range of bike racks designed for urban use.

Enhance your community image and promote healthier lifestyles and employee benefits. Our products help achieve sustainable communities and contribute to LEED certification by promoting environmental initiatives.

U. S. GREEN BUILDING
COUNCIL MEMBER
SINCE 2001

Maximize under utilized space / 11 units parks 22 bikes

Bike Lockers can fit in unused corners / 4 units parks 8 bikes

Double Tier units to expand program / 4 units parks 8 bikes

Increase parking garage revenue / 5 units parks 10 bikes

Optional view thru windows on door / 8 units parks 16 bikes

Double tiered option /
4 units parks 8 bikes

Bike parking should be placed at or near the entrance to the facility to provide ease of access and promote cycling awareness.

Optional view thru windows on doors or side create increased visibility into the units for security and availability.

Cycle Safe parking solutions provide security, convenience and long term value. Our lockers have the lowest life cycle product cost in the industry, and the only cycle parking company to win an award of excellence from the Society of Plastics Industry.

Units can be double tiered to maximize space efficiency. The locking mechanism and ID plate are located at the base of the top tier for quick access with a door hold mechanism for ease of use.
